VALUES

1. Respect the research subject
2. Act with professional ethics and humanism
3. Be tolerant
4. Promote teamwork
5. Be responsible
6. Permanently seek excellence and innovation

VISION STATEMENT

“To be recognized by 2021 as an ethical institution and a national and international leader in the generation of knowledge in medical research and in the training of researchers, transcending scientific contributions and innovative services, contributing to health and sustainable development of the country”

MISSION STATEMENT

“The Research Institute of the School of Medicine at The San Martín de Porres University (FMH - USMP), develops biomedical and global health studies of high scientific and technological level, trains researchers, focused on the prevention and development of the health of the population according to the health needs of the country”

FACULTAD DE
MEDICINA HUMANA

Director : Dr. MD. Frank Lizaraso Soto

1.- Research Center of Traditional Medicine and Pharmacology

•Head : Dr. MD. Alberto Salazar Granara

2.- Research Center of Genetic and Molecular Biology

•Head : PhD. Blgo. Ricardo Fujita Alarcón

3.- Research Center of Biochemistry and Nutrition

•Head : Dr. QF. Emilio Guija Poma

4.- Research Center of Aging

•Head : MPH. MD. José Parodi García

5.- Research Center of Infectology and Immunology

•Head : MSc. MD. Arturo Pareja Cruz

6.- Research Center of Public Health

•Head : Dr. MD. Pedro Navarrete Mejía

7.- Research Center of Drug Safety

•Head : Dr. MD. Teodoro Oscanoa Espinoza

8.- Research Center of High Altitude Medicine

•Head : Dr. MD. Alberto Salazar Granara

9.- Research Center of Precision Medicine

•Head : Dr. MD. Brady Beltrán Garate

10.- Research Center of Clinical Epidemiology and Medicine

•Head : MSc. MD. Cristian Díaz Vélez

Centros	Sub-Lineas
1.- Research Center of Traditional Medicine and Pharmacology - CIMTFAR	<ul style="list-style-type: none"> i. Traditional therapies with medication and without medication ii. Ethnomedicine, interculturality and morbi-mortality iii. Pre-clinical and clinical pharmacology. iv. Clinical research
2.- Research Center of Genetic and Molecular Biology - CIGBM	<ul style="list-style-type: none"> i. Rare or Orphan Genetic Diseases ii. Genetic components in chronic diseases iii. Cytogenetics and Genotoxicity iv. Genetic ancestry
3.- Research Center of Biochemistry and Nutrition- CIBN	<ul style="list-style-type: none"> i. Metabolic syndrome ii. Nutritional anemias iii. Antioxidants, free radicals and gene expression
4.- Research Center of Aging – CIEN	<ul style="list-style-type: none"> i. Sarcopenia ii. Mental Health and Aging iii. Malnutrition in the Elderly Adult iv. Fragility.
5.- Research Center of Infectology and Immunology - CENINII	<ul style="list-style-type: none"> i. Tuberculosis ii. HIV AIDS iii. Nosocomial infections iv. Malaria
6.- Research Center of Public Health - CISAP	<ul style="list-style-type: none"> i. Access to health services ii. Impact of emergencies and disasters iii. Quality of health services iv. Health promotion
7.- Research Center of Drug Safety – CienciaSMed	<ul style="list-style-type: none"> i. Surveillance of adverse drug reactions ii. Uses of medicines iii. Cost-utility, cost-effect and cost-benefit of medications
8.- Research Center of High Altitude Medicine- CIMA	<ul style="list-style-type: none"> i. Physiology in Altitude ii. Altitude illness iii. Effect of Altitude on acute stages of diseases iv. Effect of Altitude in chronic phases of diseases
9.- Research Center of Precision Medicine - CIMP	<ul style="list-style-type: none"> i. Hodgkin lymphoma and non-Hodgkin lymphoma ii. Gastric cancer and Epstein Barr virus iii. Melanoma and inflammatory biomarkers
10.- Research Center of Clinical Epidemiology and Medicine - CECLIMBE	<ul style="list-style-type: none"> i. Hospital Epidemiology and Clinical Management / Hospital Management ii. Emerging and re-emerging infections iii. Evaluation of health technologies
